

Catalog code : CSSD

## Special Designs

- » SIMPLICON has leading expertise in designing and manufacturing sensors as per process requirements and customer specifications. Some of them are as shown below.

Assemblies with triclover flange and PVC head

Teflon coated sensors, Glass / Quartz sensors Multilevel sensors, Ceramic sheathed sensors

Special Teflon washer design.

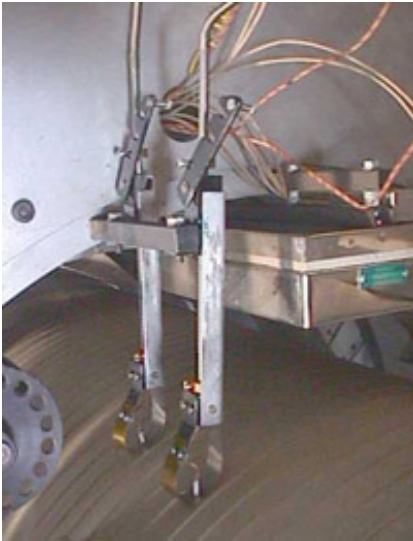

Clip on type thermocouple assembly for pipeline temperature measurement.

MI sensor with 12" long Nipple Union Nipple connection

Thermocouple assy with tapered thermowell and copper washer for high temp. with pressure applications.

Thermocouple assy. for continuous rotating surface measurement.

Textile sensor of 10mm dia x 94mm with no lead breakage and easy removal design.

Product Range	Catalog Code
Standard and Mineral Insulated Designs	- CSS
Sensors for Plastic, Rubber and Textile Industries	- CSP
Portable Probes	- CSPP
Special Designs	- CSSD
Thermowells	- CST
Compensating Cables	- CSC
Process Fittings and Accessories	- CSPF
